Introduction

Nearly one in two Tasmanians have difficulty with everyday literacy and numeracy tasks like filling in forms and adding up bills.

Icons are used to communicate important information clearly and quickly. Icons are designed to be read separately from text and can be a powerful tool in aiding understanding.

Clarity

Icons can help users navigate complex forms and websites to access important and relevant information efficiently.

Icons can also be integrated into signage to help people find their way around large buildings, or get to a destination quickly.

Accessibility

Icons make things easier for the general community but may also be of particular assistance to those from non-English speaking backgrounds, those with a visual impairment or other disability, or others with low levels of literacy.

About the icons

The Tasmanian Government provides a set of 108 icons for use in communication materials.

Legibility

The icons have been designed for maximum legibility and accessibility. The icons' simple shapes and heavy strokes help them read well at a range of sizes and lighting conditions. They are based on symbols seen in wayfinding; at airports and other large complexes and buildings.

Where possible, international standard icons have been used as these are widely understood. Additionally, new forms have been developed where an icon for a particular message doesn't exist, or where there is no agreed upon standard symbol.

Contained and uncontained

The 108 icons are presented in two formats: contained (with a square border) and uncontained (with no border). The uncontained icons are more economical in their use of space and may integrate better with existing design. The contained set carry more visual weight and may perform better in situations where impact is the primary consideration.

← High contrast between dark colour and white.

← Simplified, heavy strokes maintain legibility at smaller sizes.

← Icon sets integrate established symbols and other well-recognised visual shorthands.

← Icons come in two formats for flexibility.

Sizing

Appropriate size for the application

Icons have been designed for maximum legibility at a range of sizes and can be scaled up to an infinite size. Care should be taken when scaling down to ensure the icon is not under the minimum size.

↔
5mm

Minimum size
5 x 5mm in print
and 16 x 16 pixels
for online.

Maximum size
The .eps file format is infinitely scalable so there is no fixed maximum size for icons.

Colour

High contrast

Icons should generally be used in Blue PMS 653. A range of Tasmanian Government Style Guide and logo policy colours have also been selected for high contrast to meet WCAG 2.0 Level AA requirements when used on websites. Where alternative colours are used, consideration should be made to sizing to ensure their legibility.

PMS 371 | #586520
C:50 M:9 Y:98 K:61
R:88 G:101 B:32

PMS 462 | # 644F33
C:28 M:48 Y:71 K:73
R:100 G:79 B:51

PMS 653 | #235E96
C:94 M:57 Y:4 K:18
R:35 G:94 B:150

PMS 653 is the preferred colour for most uses.

PMS 683 | #7F2952
C:26 M:99 Y:12 K:50
R:127 G:41 B:82

PMS 668 | # 5C487A
C:70 M:77 Y:7 K:23
R:92 G:72 B:122

PMS 7546 | #2C3C4C
C:73 M:45 Y:24 K:66
R:44 G:60 B:76

Application Forms and publications

Applying icons to forms

Using icons on forms will allow users to quickly navigate to important information. Icons should generally be used in Blue PMS 653 and applied on the left of their text with a margin. Using icons in the uncontained format will allow the icons to be used at a bigger size.

TASMANIAN COMPANION CARD

KEY **CC**

The Tasmanian Companion Card is available to people who, due to their disability, require lifelong attendant care to participate at most community facilities and activities.

This card allows the holder to receive a second ticket for their companion carer, free of charge, from participating businesses and organisations.

Tasmanian residents may be eligible for the Companion Card if they:

- have a disability
- need lifelong attendant care
- due to their disability are unable to participate at most community events and activities without attendant care.

For more information and application forms:

Phone: 1 800 009 501
Email: disability@dpac.tas.gov.au
Web: www.companioncard.gov.au

If you are deaf, have a hearing impairment or complex communication needs, use one of the following services to contact the Companion Card Program:
 Companion Card TTY (telephone typewriter) on 1800 654 524
 National Relay Service on 13 36 77
 Speech-to-Speech Relay Service on 1800 555 727.

Housing Tasmania

Advice of Absence from Property Form

Housing Tasmania requires Tenants to complete this form to advise of their absence from their property for any length of time, and/or to apply for an extended absence. This form must be completed at least (2) weeks before the planned absence, where possible. In cases of emergencies, please contact Housing Tasmania to advise of the absence as soon as able.

Absence less than 8 weeks: Formal approval not needed. Please complete form to advise of absence and give alternative contact details so the Tenancy Officer can contact if needed.

Absence between 8 & 12 weeks: This is considered to be an 'Extended Absence' and must be approved. Please apply by completing form and Housing Tasmania will advise you in writing if your application for extended absence has been approved.

Tenancy Number: _____

Tenant 1: _____ Tenant 2: _____
Mobile: _____ **Mobile:** _____
Address: _____

From what date will you be absent from the above address? _____

Reason for absence from property: _____ Length of time away: _____

Staying with relatives/friends Less than 2 weeks
 Going into hospital 2 to 4 weeks
 Moving into a shelter 4 to 8 weeks
 Going on holidays Over 8 weeks
 Going into respite Until: / /
 Going into prison Other: _____

Other: _____

Will you be arranging for someone to stay at the property in your absence? Yes / No
 If yes, person's name: _____ Age: _____
Mobile: _____ Relationship to you: _____

Contact Details while you are away

Address: _____
Phone: _____

Aug 2010 v1.1
 Department of Health and Human Services

Icons should be aligned with the middle of accompanying text

A margin of approximately half the icon's width should be reserved between the icon and other elements

Alignment

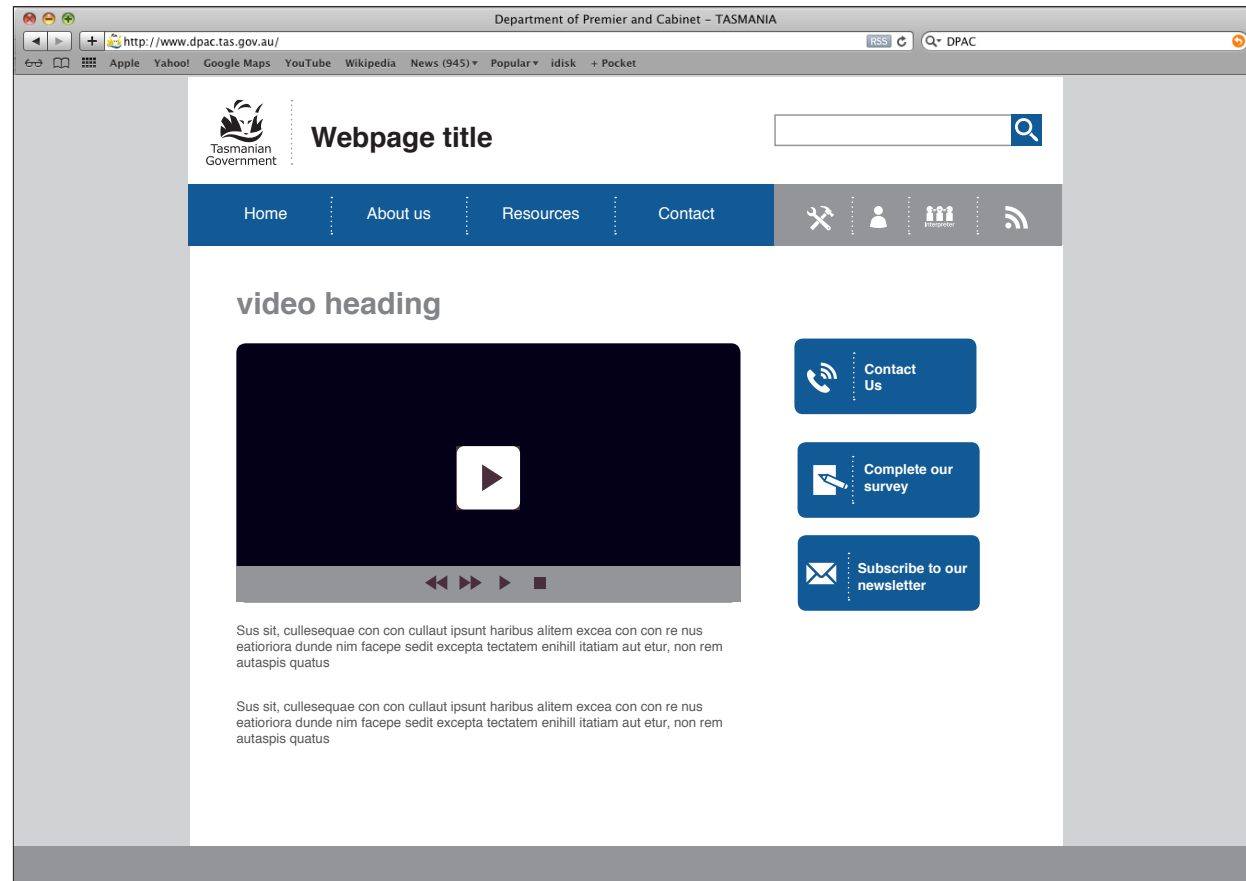

Icons should be aligned to the middle of lines of text. A margin of approximately half the icon's width should be maintained between the icon and other elements such as accompanying text and other icons.

Where multiple icons are used all margins should be uniform; set margin at a size which copes with the largest icon.

Application Web

Interactivity

The icons have also been designed for online application. They can be used within the main structure of a webpage as well as being incorporated into web page content to complement and help communicate the text.

Application

Ads and promotional collateral

Engagement

Icons can be integrated into marketing and promotional material to add visual interest and to invite users to engage in the content or respond to a message.

Icons can also highlight the existence of additional resources.

Think big

Three to four icons (at the most) used in large sizes are most visually effective for these kinds of applications. It may also be appropriate to use some of the alternative style guide colours.

Ideas for reducing energy

volutpat lectus. Etiam quis odio. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Oversized icons accompanied by large heading

Multiple style guide colours

File formats

.eps

Encapsulated Postscript

An .eps file is commonly used by graphic designers / production people as an output file. It is high quality as it retains the 'vector' information that created the original artwork. Therefore an .eps file can be infinitely enlarged without degradation or pixilation.

Uses: An .eps is best used for any professional output requirement. It is the file type that should be used for professional signage.

.png

Portable Network Graphics

A .png file is a lossless compression file format that uses improved image compression technology to create smaller image files that download more quickly. .png files are suited to storing line drawings, text, and graphics. .png files also enable variable transparency, where users can control the layers of the image that are transparent. This makes moving images from one background to another easier.

Uses: png files are a common choice for use on websites and most desktop programs e.g. Word and PowerPoint. .png files are not suitable for offset printing or other professional production outputs.
